Go Paperless

To Enter For A Chance To Win \$250!!

“Paperless Billing.....what’s in it for me?”

INCREASED SECURITY. Paper bill statements require printed and mailed account information. The printed information passes through many departments and services with an increased possibility of becoming lost or delayed. *A Paperless bill allows us to communicate personal information straight to you.*

CONSISTENCY. You will get your bill at the same time and place each month, and you will have previous bills at your fingertips for easy access and retrieval. *Paperless bills are scheduled and delivered electronically.*

QUICKER OPERATIONS AND PAYMENTS. Paper statements require printing, packaging, postage, and delivery. *Paperless billing streamlines the process, getting the bill to you immediately.*

REDUCED CARBON FOOTPRINT. Companies in America use an average of 4 million tons of paper each year. At the City of Oberlin, one of our goals is to be environmentally friendly. *It is our responsibility to protect and preserve our natural resources.*

A CHANCE TO WIN! *Enroll in paperless billing by November 1st, 2024 for a chance to win one of 2 drawings for \$250 in Chamber Bucks.*

Sign up for an eCommerce account to enroll in paperless billing at...
